SUMMARY

UX designer who creates intuitive, visually polished experiences and simplifies complex workflows. I combine UI design, user-centered research, and rapid prototyping to turn complicated business problems into accessible solutions that make products easier to use.

EXPERIENCE

UX Designer 2024 – Present

Walmart Global Tech · Bentonville, AR

- Design the UI for ReimburseMe, Walmart's expense reimbursement app used by 9K+ associates, on a team led by a senior UX designer.
- Designed end-to-end flows for receipt OCR capture, per diem, vehicle management, InComm and credit cards, and export; now own the UI for itemizations (splitting one receipt across expense types).
- Partner with product managers and engineers through design reviews and working sessions; run visual QA against Figma before release.
- Took part in usability testing of the Missing Receipt Affidavit flow with five participants.
- UX Design Lead on a clickable prototype connecting Data Hub reports to Studio, an AI storytelling workspace (2 iterations, desktop and mobile).
- UX designer on the Workforce Planning Portal redesign, moving a store scheduling tool onto Walmart's new design system.

Product Management Specialist Intern Jun – Aug 2024

Walmart Global Tech · Bentonville, AR

- Prioritized global service types in product roadmaps aligned with the Built Environment's technology and research strategy.
- Ran competitive analysis and gathered client feedback with stakeholders to understand user needs and pain points.
- Researched business needs and turned them into a prototype for an internal expense platform; presented deliverables to the CTO.

Web Design Intern Jun 2024

MSU ADA Accessibility

- Made wireframes, mockups, and prototypes; defined the client's vision and a long-term roadmap.
- Ran usability tests and gathered user feedback to improve the experience.

UX Design Lead (contract) Feb 2022 – Jun 2025

Ani · animanga social app

- Led product design for a platform where fans track, discover, and talk about anime and manga.
- Designed the MVP from the ground up; it reached 10K+ downloads in its first month.
- Built a scalable design system: color tokens, type scale, variants, and reusable components.

PROJECTS

TexStyle Fall 2024

- Mobile shopping app that grades clothing on sustainability, labor, and transparency. Team of four (Michigan State, GD468 Interaction Design); Co-Director of Graphic Design and Content Strategy; ran usability tests with fashion students.

Fitness Bingo

- Mobile app that turns workouts into bingo challenges. Sole designer, for a graphic design class.

EDUCATION

Michigan State University · Bachelor of Arts, Experience Architecture (Human-Computer Interaction) May 2025

SKILLS

Practice: User research • Usability testing • Wireframing • Prototyping • Information architecture and user flows • Visual QA • Agile/Scrum • Feature definition and acceptance criteria

Tools: Figma • Figma Make • Adobe Creative Suite • Miro • Jira • Confluence • HTML/CSS • GitHub • Wibey
